

#218 Polypropylene

Deep Gloss 1.8 mil

FilmLOC® Advantage Self Wound Lamination for Labels and Tags

Description #218 deep gloss polypropylene lamination with heavy adhesive coat weight. Thicker adhesive coating gives better wet out on offset printed papers.

Applications Especially designed for use on prime labels, including ECL (expanded content labels) and booklets. Heavier adhesive coat gives better holding adhesion for applications such as booklets, coupons and rougher paper stocks. Adds stiffness to thin film or long length labels and helps labels to lay flat.

Product Data	Effective 08/14/07
<i>Film</i> PSTC-33	1.0 mil Gloss Polypropylene
<i>Adhesive</i>	0.8 mil emulsion acrylic
<i>Overall Thickness</i> PSTC-33	1.8 mil
<i>Web Width</i>	60.5" master roll
