

Austik Diamond 10 Series

Specialty Label Laminating and Converting Equipment

Model D-1070 and D-1080

Model D-1080
Shown above

The Diamond-10 Series...

- Laminate and die cut printed labels in-line with any digital output press or roll fed printer or roll-to-roll or convert blank labels.
- Maximum die cutting area is 10" x 12". Maximum web width 10.25". Slitter is standard on all models.
- Unique reciprocating rotary with re-registration system for converting printed labels or blank labels. All job changes are done without removing cylinders from the press.
- Unique upgradeable feature allows you to purchase the machine you need now and add other capabilities as your business grows or your needs change.
